Logging In

Open the link below in your **Chrome Browser**:

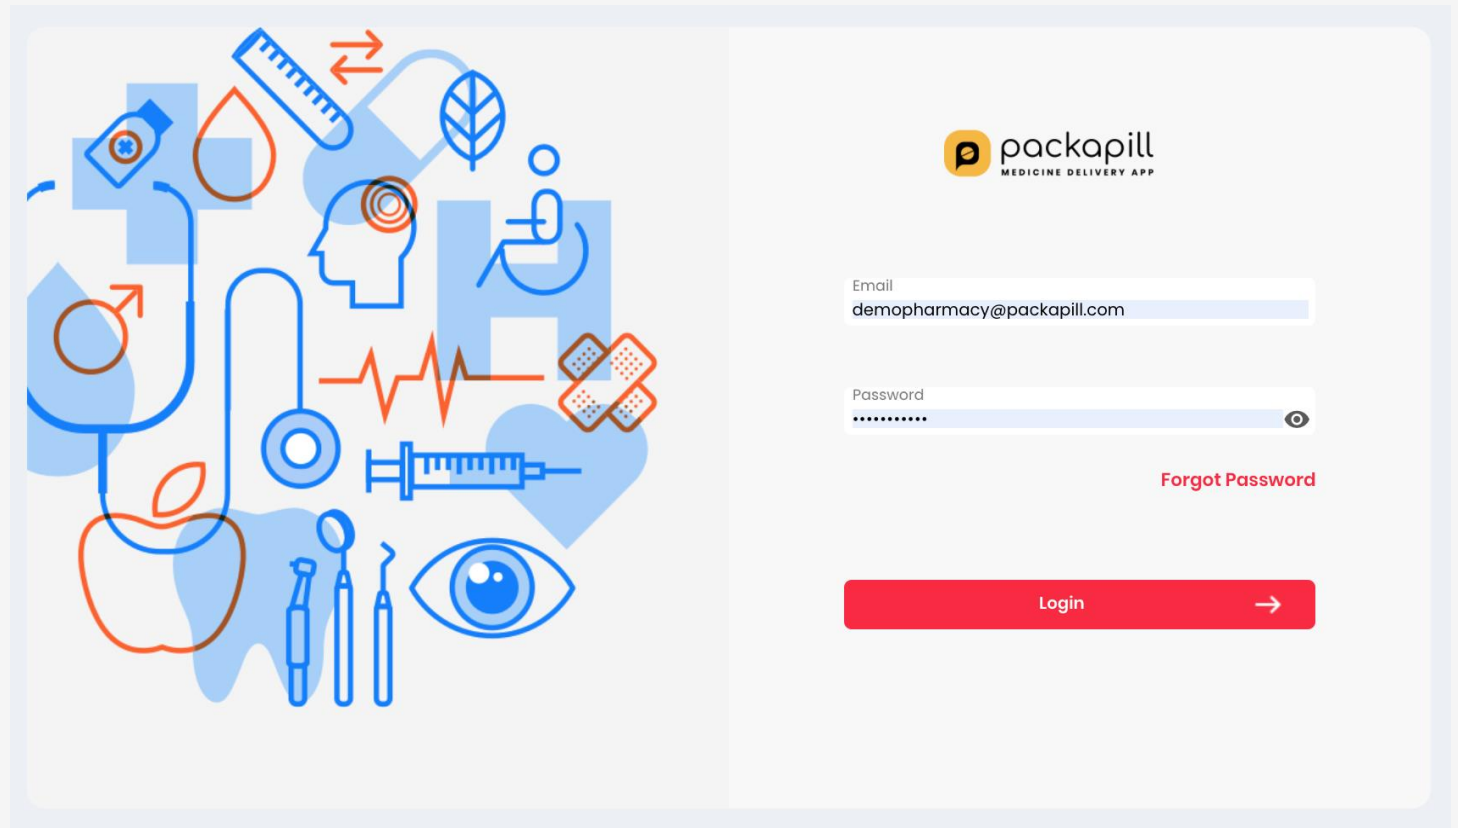

<https://pharmacy.packapill.com/>

Enter your **Email address** and **Password** to login.

If you have forgotten your password, click **Forgot Password** and follow the prompts to reset it.

If you need further assistance, please reach out to the Packapill support team at the address below:

care@packapill.com

Dashboard

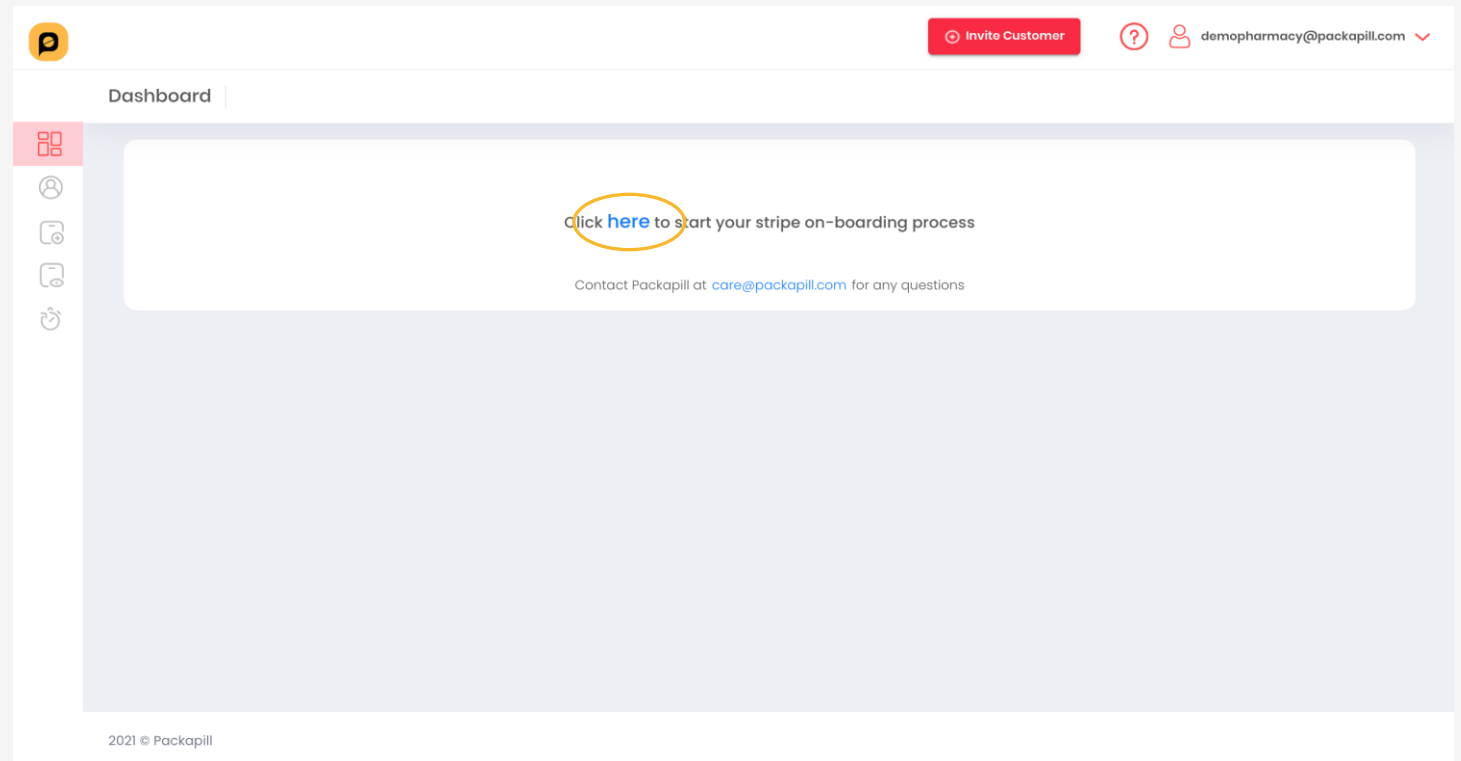

Setting up Stripe

When you first log into the Dashboard you will be prompted to set up your Stripe account to receive payments.

Click **here**, to get started.

Refer to the Stripe on-boarding guide for assistance with this process.

Dashboard

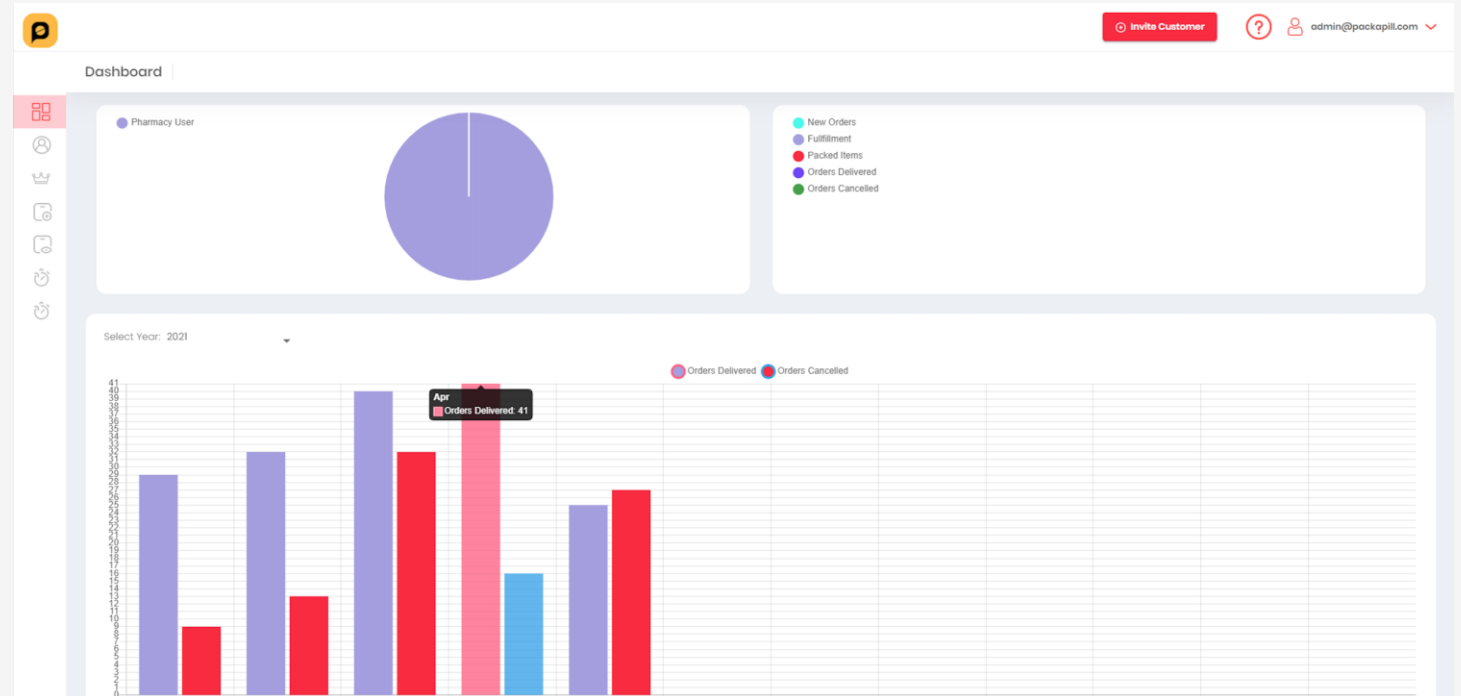

Dashboard Data

Once set up, the Dashboard will display high-level statistics to help you track usage of your Packapill account.

Hovering over each graph or chart will give you detailed information for each item.

Data shown includes:

- Orders processed per user
- Monthly orders delivered
- Monthly orders cancelled

Dashboard

Inviting New Customers

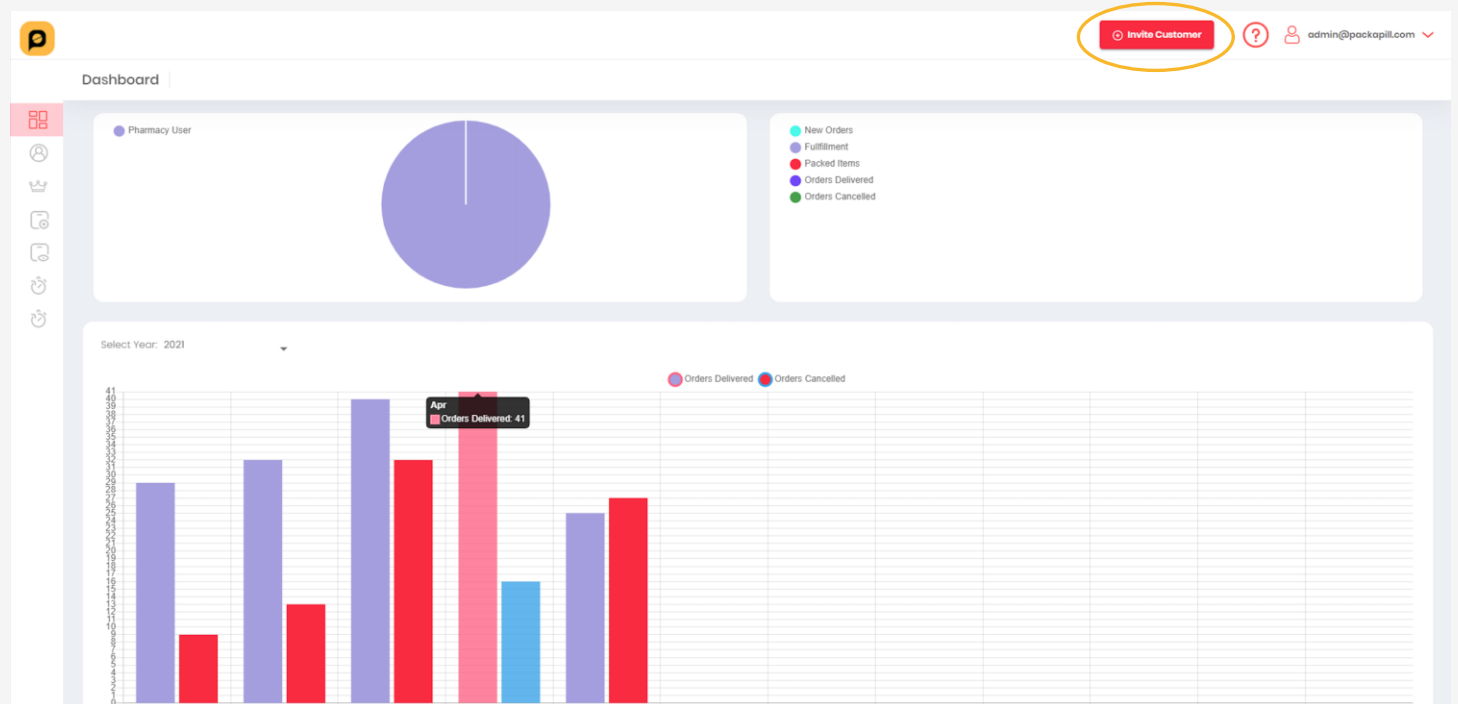

You can invite new customers by clicking the **Invite Customer** button at the top right of every page on the platform.

Clicking this button will open a new pop-up window (shown below) where you can enter the customer's mobile number and then click **Send App Link** to send a link which will allow them to sign up with your pharmacy set as their default pharmacy.

Invite Customer Close

Enter Mobile No : e.g. 412 345 678

Send App Link

Processing Live Orders

Review Live Orders

1. Open the **Live Orders** page to view your Packapill orders.
2. Click on the order number (e.g. #0D9606823300) or click **Confirm Order** to review the detailed order information.

Processing Live Orders

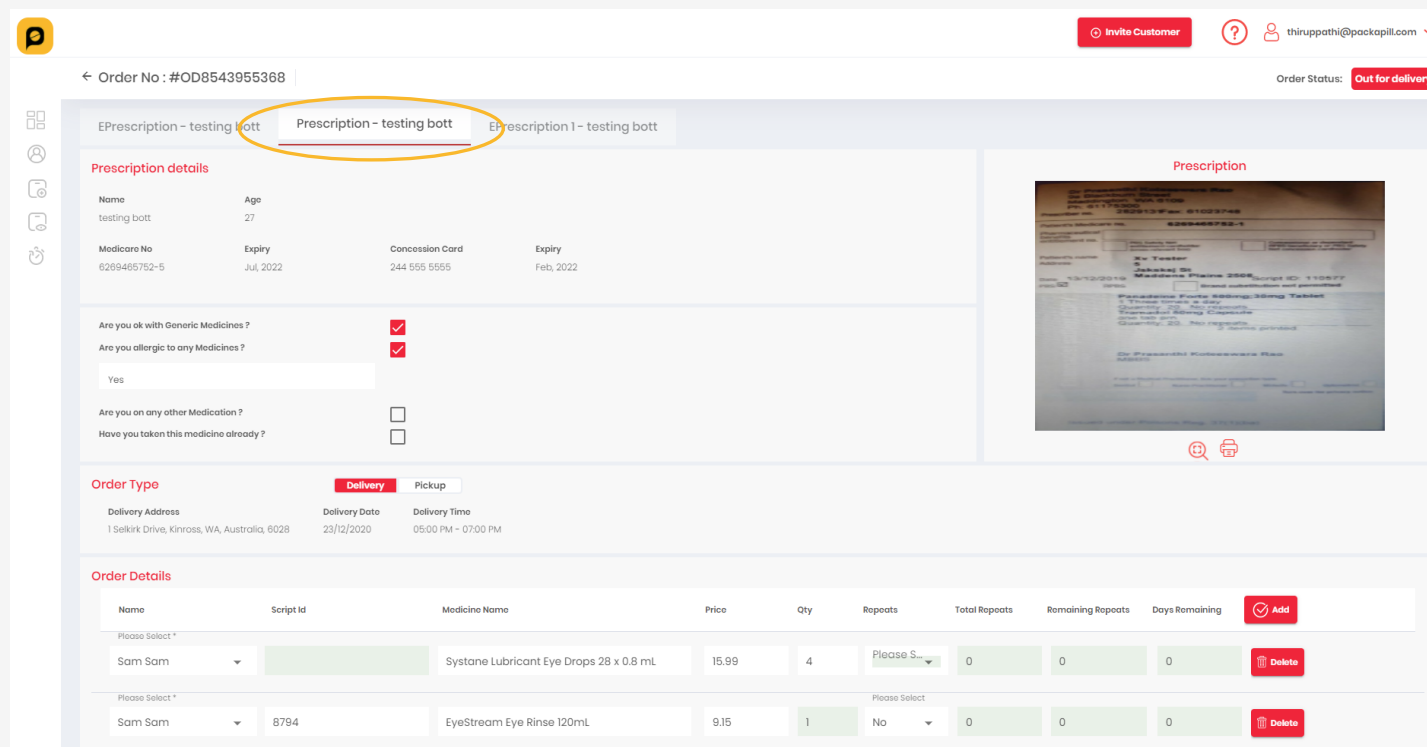

Processing Multiple Prescriptions

If a user has submitted an order with multiple prescriptions, each different prescription will be shown on its own tab below the order number.

Click on each tab to review the individual prescription details and confirm what is required.

Follow the steps discussed on the following slides for each particular type of script in order to confirm and finalise for payment.

If a prescription cannot be dispensed, simply leave the **Price** and **Qty** fields empty, and the customer will not be charged for the item.

Order No : #OD8543955368

Order Status: **Out for delivery**

Reviewing E-Prescription Orders

3. If appropriate, call the customer to confirm their medical details and/or concession status. The patients contact number is displayed on the Live Orders page.
4. Click **Confirm Order** to finalise the order and notification will be sent to the customer to make payment.

The screenshot shows the 'EPrescription - Prabhu' review page. At the top, there's a navigation bar with the Packapill logo, an 'Invite Customer' button, a help icon, and a user profile 'thirupathi@packapill.com'. Below this, the order number '#OD9606823300' and status 'Awaiting payment' are displayed. The main content area is divided into two columns. The left column contains 'Prescription details' with fields for Name (Prabhu), Age (21), Medicare No (6269485752-3), and Expiry (Oct, 2021). It also includes checkboxes for 'Are you ok with Generic Medicines?', 'Are you allergic to any Medicines?', 'Are you on any other Medication?', and 'Have you taken this medicine already?'. The 'Order Type' section has 'Delivery' and 'Pickup' buttons. The right column features a large QR code labeled 'Prescription'. At the bottom, the 'Order Details' table lists the item 'Nurofen' with a price of 9.99 and a quantity of 1. The 'Confirm Order' button is highlighted with a red circle.

Processing Live Orders

Processing Repeats

When a prescription has repeats indicated, simply enter the repeat information next to the line item under **Order Details**. Ensure you fill all the required information:

- Repeats (Yes)
- Total Repeats
- Remaining Repeats
- Days Remaining

The customer will receive a notification on their Packapill app 5 days prior to when their repeat is due.

Processing Live Orders

Requesting Delivery

You will receive a notification when the customer has paid through their app. Then all you need to do is click **Request Delivery** and dispense the items ready to be picked up.

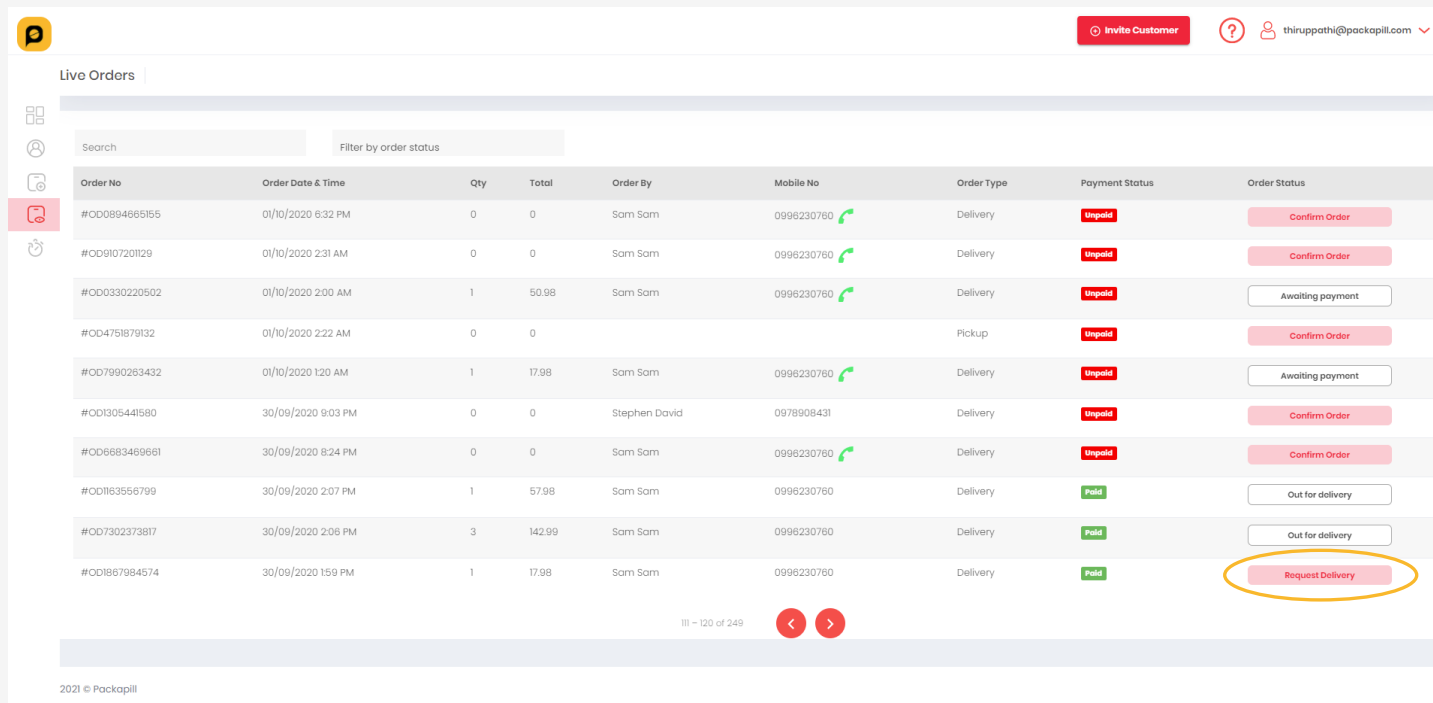

Packapill will dispatch a courier and the order status will update to **Courier Assigned**.

When the courier arrives, authenticate the order by verifying the customer's First Name and Delivery Address.

Hand over the order to the courier and click **Courier Arrived**. The order status will update to **Out for delivery**.

The order is now away! If the order was for a physical prescription the courier will collect the physical prescription from the customer and drop it back at the pharmacy.

Repeats will be retained at the pharmacy by default. Order status will update to **Order completed** upon completion of delivery.

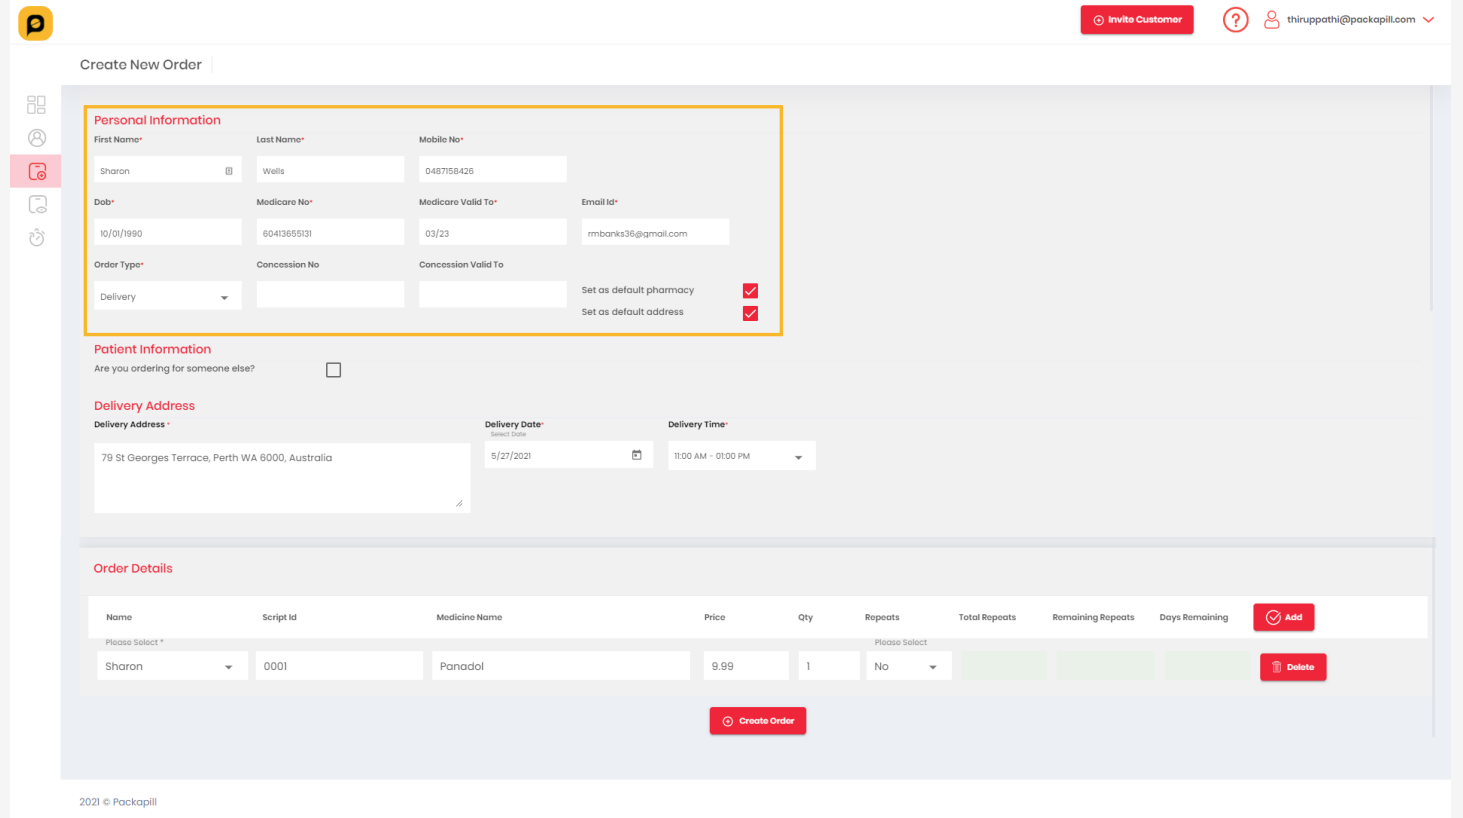

The screenshot shows the 'Live Orders' dashboard in the Packapill app. At the top, there's a search bar and a 'Filter by order status' button. Below this is a table with columns: Order No, Order Date & Time, Qty, Total, Order By, Mobile No, Order Type, Payment Status, and Order Status. The table lists several orders. The last order, #OD1867984574, is highlighted with a yellow circle around the 'Request Delivery' button in the 'Order Status' column. The interface also includes a sidebar with icons for various functions, a top navigation bar with an 'Invite Customer' button and a user profile, and a footer with the copyright notice '2021 © Packapill'.
